SUPRAMAT PANEL

SUPRAMAT's high-tech classic Soft Touch and High Gloss surfaces offer superior surface quality that protects against scratches and is extremely durable. Thanks to its advanced technology, SUPRAMAT panels are anti-fingerprint and will not leave smudges. Micro scratches that occur on the surface are easily repairable through an innovative thermal process, differentiating it from any other product on the market.

SUPRAMAT blends seamlessly with the rising trends emerging in the design world, offering designers unique possibilities with its ultra-matte surface that is silky smooth to the touch in a wide range of modern colour options. The lustrous lacquer feel is coated on both surfaces of SUPRAMAT. With low reflectivity, SUPRAMAT is suitable for home, office, furniture and other interior decor applications.

supra mat

*Micro-scratches on the surface (such as a nail scratch) can be easily repaired. The scratches should not be deep enough to remove the first layer on the surface of the product. If the scratch has permanently damaged the lacquer layer, it will not disappear naturally.

Easy Repair Details:

Place a piece of fabric on the surface, covering the scratch, then iron the fabric over evenly for 20-30 seconds with a temperature of 100-120C. The surface should appear new again.

SUPRAMAT COLOURS

SUPRAMAT's high-tech classic Soft Touch surfaces offer superior surface quality that protects against scratches and is extremely durable.

Thanks to its advance technology, SUPRAMAT panels are anti-fingerprint and will not leave smudges. Micro scratches that occur on the surface are easily repairable through an innovative thermal process.

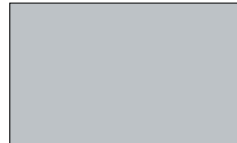

The ultra-matte surface is silky smooth to the touch, offered in a wide range of modern colour options that appeals to all senses. With low reflectivity, SUPRAMAT is suitable for home, office, furniture and other interior decor applications.
